THE COVER

BRONXBORO'S 61st Anniversary Edition cover superimposes on an outline map of The Bronx scenes of a few of the industries that are typical of the Borough's tremendous activity and commercial development.

Because of excellent transportation, arterial highways, waterways, railroad and freight facilities, adequate industrial space, good employment market, and the cooperation of public officials and trade groups, The Bronx is strategically located for practically every type of industry.

Those firms who are in The Bronx know that "THE BRONX IS A GREAT COMMUNITY FOR BUSINESS."

For further information please write to The Bronx Board of Trade. We shall be happy to serve you.
